Tascam Us 122 Mkii Drivers For Mac

Have tried using a Belkin powered USB hub, still no response, Have tried with the seemingly updated driver on the Tascam website, and with the driver that came on the CD-rom with the device, and all possible combinations of driver/hub, everytime removing all tascam documentation and applications from the machine before re-installing.

I just want to get in to garage band and lay some demos down and use the line 6 pod tone library, and may be do some live recording of our band.. Tascam Us-122 Mkii Windows 10Tascam Us 122 Mkii Driver DownloadTascam Us 122 Mkii ReviewTascam Us-122 Mkii Usb 2.. The USB light flickers on for a second but does NOT say lit up The only place that it shows up is in system profiler, under the USB hub it is connected to, which i guess is promising.. Don't know what else to try, has anyone got any suggestions? Just to clarify, Tascam does not appear in system prefs, Logic or Garageband.. I've had the most luck getting the thing up and running this way: --plug in the interface with GarageBand closed all the way.. I'm new to both pieces but read manuals and still having problems Definitely not user friendly. b0d43de27c Elo 1939l Drivers For Mac
